

Product data sheet

Product category	Portable aircos cooling
Brand	Qlima
Model	P 335 SMART
Colour	White
EAN code	8713508003993

Technical specifications

EER	W/W	2,6
Energy class		A
Cooling capacity	kW	3,5
Power supply	V/Hz/Ph	220-240~ / 50 / 1
Current (max.)	A	5,9
Airflow (high)	m³/h	320
For rooms up to	m³	72 - 107
Dehumidification capacity	l/24 h	
Operating range	°C	18 ~ 35
Thermostatic range	°C	16 ~ 31
Sound pressure noise level at 1 m - high mode (SPL)	dB(A)	53
Sound power level (SWL)	dB	65
Fan speeds	positions	2
Control		electronic / remote control
Included filters	type	Nylon / Screen
Refrigerant type / GWP / Charge	R/g	R290 / 3 / 175
CO ₂ equivalent	tonnes	0,000525
Compressor type		rotary
Dimensions (w x d x h)	mm	285 x 335 x 698
Protection class		IPX0
Net. weight	kg	27
Warranty	year	3

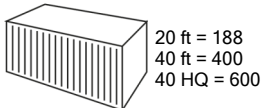

All data is measured in accordance with applicable EU specified standards at the time of production. To be used for indicative purposes only.

Portable airconditioner, User manual

Accessories (to order)

Description	EAN code

WiFi functionality

Dehumidifier function

R290

Eco-friendly refrigerant
R290

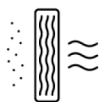

Remote control

2 Fans speeds

Daytimer

Airfilter function

Wi-Fi: Powered by Tuya: Smart air conditioning, remotely controlled with Wi-Fi via Tuya App.

Remote control: This unit can be operated with an easy to handle remote control.

Fan speed setting: Select the fan speed: low, medium or high. The display will show the chosen speed.

Cooldown effect: The unit removes humidity by condensation. The condensate cools the condenser and is removed by the hot air discharge. This will increase the energy efficiency, the so called "cool down" effect.

Dehumidification: The unit can also be used as a dehumidifier only. In that case the exhaust hose is not connected and warm air returns in the room.

Exhaust duct: Hot air and humidity is transported, by an easy to install exhaust duct, outside the room

Refrigerant gas R290: Natural gas with high energy efficiency. Environmentally friendly, R290 gas has a neutral impact on the ozone layer.

Timer: Operating time to be set to 24 hours. The unit switches off or on automatically when the set time has run down.

2 Fan speed setting: Select the fan speed: low or high. The display will show the chosen speed.

Air conditioning: The unit produces, with relatively high energy, a pleasant and refreshing high capacity cool airflow. Unhealthy particles are captured by the air filters. Performance is optimal when the entering of warm outside air.

Continuous drainage: In use as dehumidifier it is necessary to connect a continuous drainage tube (not included) to the unit.

Filtration system: This air conditioner is equipped with a screen filter that captures larger particles such as dust. It can be cleaned with a vacuum cleaner and / or lukewarm water.

Dehumidification: The unit can also be used as a dehumidifier only.
