Features

Blower function: For cleaning the bbq or outdoor stove there is a convenient blower function. With the blower function you will be able to clean those really hard to reach spots.

Fire retardent HEPA filter: The ash vacuum cleaner contains a fire retardent HEPA filter. This filter is washable.

Clean hand filter exchange: The clean hand filter exchanger allows you to take out the filter from the appliance without touching the dirty/ dusty parts of the filter. Simply unlock the easily accessible locks on the top lid, take out the motor compartment and you can access the filter from the clean side.

XL powercord: This cleaner has an extra long powercord, convenient for cleaning.

Big tank: You don't want to empty the tank everytime you use the product. So this ash vacuum cleaner has a big tank of 20 liter.

Crevice nozzle: To clean all small corners, you can use this flat tipped nozzle.

Easy to carry: For extra mobility the ash vacuum cleaner has an ergonomic lifting handle.

Easy to use lid: The engineered subtile clips hold the lid firmly at its place, while at the same time it allows the end user to easily remove the lid.

Easy to use suction tube: The suction tube is with it's twist on/off function easy to connect or disconnect.

Perfect for hot and cold ash: The ash vacuum cleaner is usable for all ashes: BBQ, wood stoves and pellet stoves.

Warranty: 2 year warranty.
