Airfilter function

Heater: Equipped with a dual heating / air conditioning function, this model offers a comfortable backup heater of for use all year round.

Air conditioning: The unit produces, with relatively high energy, a pleasant and refreshing high capacity cool airflow. Unhealthy particles are captured by the air filters. Performance is optimal when the entering of warm outside air.

Dehumidification: The unit can also be used as a dehumidifier only.

Wi-Fi: Powered by Tuya: Smart air conditioning, remotely controlled with Wi-Fi via Tuya App.

Remote control: This unit can be operated with an easy to handle remote control.

Cooldown effect: The unit removes humidity by condensation. The condensate cools the condenser and is removed by the hot air discharge. This will increase the energy efficiency, the so called "cool down" effect.

Continuous drainage: In use as dehumidifier it is necessary to connect a continuous drainage tube (not included) to the unit.

Fan speed setting: Select the fan speed: low, medium or high. The display will show the chosen speed.

Refrigerant gas R290: Natural gas with high energy efficiency. Environmentally friendly, R290 gas has a neutral impact on the ozone layer.

Timer: Operating time to be set to 24 hours. The unit switches off or on automatically when the set time has run down.

2 Fan speed setting: Select the fan speed: low or high. The display will show the chosen speed.

Filtration system: This air conditioner is equipped with a screen filter that captures larger particles such as dust. It can be cleaned with a vacuum cleaner and / or lukewarm water.
