

Product data sheet

Product category	Paraffin laser heaters
Brand	Tectro
Model	SRE 1328 C
Colour	Black
EAN code	8713508778716

Technical specifications

Burner type	Electronic Injection Burner System (BI)	
Capacity (min./max.)	kW	1,08 / 2,85
For rooms up to	m ²	18 - 46
	m ³	46 - 115
Consumption (max.)	l/h	0,298
	g/h	238
Capacity tank	l	5
Autonomy (min./max.)	h	17 - 44
Power supply	V/Hz/Ph	220 - 240~ / 50 / 1
Power consumption at start	W	335
Power consumption	W	78 - 119
Sound pressure level	dB(A)	28 - 35
Dimensions (w x d x h)	mm	371 x 299 x 429
Net. weight	kg	8
Warranty	year	2

Safety features

Tip-over switch - Safety stop - Overheat protection - Safe top - CO₂ sensor - Child lock

All data is measured in accordance with applicable EU specified standards at the time of production. To be used for indicative purposes only.

Package content

Paraffin laser heater, Transport cap, User manual

Accessories (to order)

Description	EAN code

Built-in CO₂ sensor

Tip-over safety switch

Daytimer

Child lock

Safety stop

CO₂ sensor: The user is informed when additional ventilation is required. The heater will be switched off when the room is not ventilated sufficiently.

High-tech burner: This heater is equipped with a burner system that heats up extremely quick and very gradual. This gives a more comfortable heating sensation.

Fuzzy logic: This heater is equipped with a self-regulating temperature control system. The heating mode can be set according to the requirements.

Semi-automatic operation: This heater is equipped with a 24-hour programmable timer and integrated thermostatic control to maintain the desired room temperature.

Wickless design: Provides clean and economical heating without wick maintenance or replacement.

Information display: The digital displays helps to keep track of all the important heater functions.

Safety features: This heater is equipped with a combustion quality sensor, an over-heat protector, a tip-over switch, a safe top and a burner thermistor for safe heating.

Safety system: This heater is fitted with a safety system that automatically switches off the heater after approximately 40 hours of continuous operation.

Childproof lock: When this button is pressed, the operation of buttons will be blocked, except the on/off button.

Automatic airflow control: The speed of the built-in fan is self-regulatory, depending on the burning mode of the heater.

Automatic extension operation mode: When the fuel tank is almost empty, the display will show that the tank has to be refilled. The extension operation mode is activated and the heater switches to the lowest burning mode for more than one hour.

Large autonomy: The large 5 l fuel tank is good for up to ||MaxAutonomy|| hours of pleasant heat.

Additional heat output: All consumed electric energy is emitted in the room to be heated.

Anti-odour system: The perfectly balanced heating system burns almost 100% of all fumes and gasses throughout the complete combustion process (start up - heating - cooling down). The result is a comfortable heating experience without unpleasant odours.

Quiet operation: When heating the room, the device produces only a limited amount of sound. Also in the start up phase, the heater produces very little sound.

Made in Japan: This heater has been produced according to the ISO 9000:2015 Quality Control Standard.
